COUNTY AUDITORS MAKE SURCHARGE

Regard Eight Hundred Dollar Fee in Road Case as Excessive and Cut it in Half. Brief History of the Case.

At the session of court this morning the county auditors presented their reports covering the accounts of the county treasurer, county commissioners, and directors of the poor. Of particular interest was the surcharging of the commissioners and the treasurer of \$400 on a fee of \$800 allowed John D. Keith Esq. for his services in the mandamus proceedings growing out of the Straban township State-aid road matter.

It will be recalled that Straban township failed to pay into the State treasury a sum between \$7000 and \$8000 for their share of the State-aid road built in the vicinity of Hunters-town several years ago. Because the township had failed to pay its share, the State held up payments to this county on other accounts due to the county and in no way connected with the road account.

Between \$2000 and \$3000 had been held up in this way, while Adams County had deferred paying to the State between \$6000 and \$7000, knowing that it would simply be applied to Straban's account.

It was to decide this question and recover from the state the sum indicated on other accounts that mandamus proceedings were instituted, and Mr. Keith was named as special counsel in the proceedings. The case was won by the county and Mr. Keith put in a bill for \$800 for his services. The bill was allowed by the commissioners and paid by the county treasurer. The auditors regarded the fee as excessive and made the surcharge as noted.

The report was signed by only two of the auditors, George B. Aughinbaugh and Luther B. Slaybaugh. The third auditor is R. D. Myers.

LIGHTS OUT

Broken Wire Comes at Wrong Time. Was Unavoidable.

Gettysburg streets were in darkness Sunday evening for a period of two hours, which covered the time when people were returning home from church services and very much inconvenienced on account of the darkness. The trouble came from a broken wire along Railroad street in the eastern part of town caused by the high wind. It was repaired as quickly as possible and service restored.

The company takes every precaution to guard against such occurrences. The circuit is tested every two hours during the day and in the afternoon it is tried out every few minutes to see that things are all right. The break Sunday evening came after the lights were turned on and was entirely unavoidable.

UNCONSCIOUS

Slight Concussion of the Brain Result of Accident.

While working at a warehouse, in McSherrystown, on Friday Paul Little met with an accident. Mr. Little was operating a press when the ratchet slipped throwing him against the press. He was picked up in an unconscious condition. Dr. J. H. Bittinger was called, who took him to his home and found a slight concussion of the brain. Mr. Little regained consciousness some hours later and expects to be able to return to work after several days' treatment.

MOTHER AND BABE SAVED FROM FIRE

Timely Arrival of Neighbors Saved Woman from Horrible Death. Home Burned with All of the Contents.

Only because of the fortunate discovery by two men who were passing were the lives of Mrs. Raymond Wilson and young babe saved from an awful death by fire on Saturday. Mr. and Mrs. Wilson have a wide acquaintance and a number of relatives in York Springs, Idaville, and Huntington township.

It was about seven o'clock in the morning when J. C. Heffelfinger and James Ricketts passed the Wilson home located on the Pine Road in Dickinson township, Cumberland County, formerly known as the Lafayette Pfeiffer place. They noticed smoke issuing from the house and at once got busy. They kicked in the kitchen door but the flames and smoke drove them away from there. They then got a ladder and got into the second story.

By this time Mrs. Wilson and baby who were sleeping on the first floor got awake and made their escape. Mrs. Wilson in her night clothes, which was all the clothing she saved. The men saved only a little of the furniture, including a sideboard in which fortunately was all the money that was in the house and Mr. Wilson's insurance policy covering insurance on his furniture. The top of the sideboard was burned off.

The fire is believed to have originated from an overheated stove.

Mr. Wilson is employed by the Philadelphia and Reading railway company and it is his custom to get up early in the morning, prepare his breakfast and go to work. This he did Saturday morning, but it is believed he left the draught on the stove in the kitchen. The house which is about a half mile from Barnitz is owned by Mr. Wilson's brother, Raymond, who also carries insurance. The house burned to the ground.

MORE SESSIONS OF OUR COURTS

Advocated by Attorneys and there will Likely be at Least One Every Month in the Year with Exception of July.

A petition was presented by Wm. Arch McClean Esq., on behalf of a number of members of the bar, at the regular session of March court which convened this morning, to have the four regular return days supplemented by the fourth Monday of every month of the year except July. Most of the bar expressed themselves as desiring the additional return days and several members suggested that July be included. The matter was taken under advisement by the Court.

Charles Stahl Butt, who last week was admitted to practice before the Supreme Court, was on motion of J. L. Williams made a member of the Adams County bar. Mr. Butt is a son of J. L. Butt Esq., and they will form a partnership, the firm name being Butt and Butt.

John R. Scott Esq. was appointed auditor to dispose of exceptions in the estate of Andrew Trimmer, and Charles E. Stahl Esq. was appointed auditor of the estate of Susan Hartman.

All accounts advertised were confirmed with the exception of that of Samuel M. Bushman, executor of the estate of Lydia A. Little, which was continued.

At the conclusion of the hearing of remonstrances against the granting of liquor licenses to the two hotels in York Springs and to the Washington Hotel and Hartzell's Cafe, Gettysburg, it was announced that the decision was reserved until March 6th. Other matters occupied the attention of the Court during the whole of the morning period.

This afternoon it was announced that, the question having arisen whether or not a license could be granted for the purpose of transfer, a further hearing for the purpose of argument would be held Wednesday. No decision was given in any one of the cases.

WORSE THAN BATTLE

Gettysburg Had Fewer Wounded than State Industries.

Commissioner Jackson, of the Department of Labor, in an appeal for safety first said Saturday that more workers were injured in Pennsylvania industries during January and February than the total number of soldiers, of both armies wounded in the battle of Gettysburg, or 37,946, at the rate of 1000 a day during the latter part of February.

Commissioner Jackson contends that these accidents, if continued, will result in the wounding of 300,000 workers in Pennsylvania's industrial army in 1916, with a working population of 1,500,000.

CURTAIN FUN AT COUNTY FAIRS

Must be More for Instruction and Less for Entertainment. Thinks this Association. Lose Sight of Real Purpose.

A move to make the county fairs and agricultural exhibitions held throughout Pennsylvania, particularly those which receive pecuniary aid from the State Treasury, more agricultural than amusement affairs, is to be undertaken when the annual meeting of the State Association of County Fairs is held in Harrisburg on March 13 and 14.

For the last three or four years reports have been received at Harrisburg that some fairs have been more notable for the variety and extent of the amusement devices than for the prize pumpkins, big bulls and other features which were so much associated with the development of the county fairs.

Secretary of Agriculture Charles E. Patton has declared that he will lead the co-operation of his department to bringing about a change and intends to meet the fair managers when they assemble and to urge that steps be taken to secure more representative displays of farm products and to obtain substantial premiums.

In short, the policy of the department is to be to get the fairs to do more for encouragement of agricultural interests than lately and to minimize the midway and horse races in favor of the live stock, fruit, vegetables and crops, which were formerly the objects of great rivalries in rural communities.

STILL HOPE FOR THEIR \$200,000

Frederick's Claim now Has Some Chance of being Passed and Maryland Town is Happy over the Prospect.

The bill of Congressman David J. Lewis to reimburse the city of Frederick to the extent of \$200,000, which was paid during the Civil War to save the city from burning, will be favorably reported by the House committee on claims, if the report of the sub-committee is adopted, which in all likelihood will be the case.

The sub-committee of the House committee on claims Friday authorized a favorable report on the bill. It is now a question of how soon the entire committee will report the bill on the floor of the House, which will make its second reading. After that it comes up for the third reading and final passage in the House and then goes to the Senate. Senator John Walter Smith has always taken a keen interest in the measure and has promised to give it his best support when it comes across from the other end of the Capitol.

It will be recalled that last year the Frederick war claim, after persistent efforts on the part of Congressman Lewis, got as far as the third reading calendar in the House, but on account of a number of international problems which arose, a final vote was not taken. When this session of Congress convened, Mr. Lewis at once introduced the \$200,000 war claim again.

It augurs well for the bill that it should have been reported favorably at this time, when the chances are that a heavy demand will be made on the United States treasury on account of the enactment of preparedness legislation.

REDDING—STORM

Early Morning Wedding in St. Francis Xavier Church.

Miss Margaret Storm, a daughter of Mr. and Mrs. Lewis Storm, of Straban township, and Leo Redding, son of Mr. and Mrs. Adam Redding, of Cumberland township, were married in the Catholic church this morning by Rev. W. F. Boyle. The attendants were Francis Rosensteel and Miss Jennie Redding.

The Lohengrin wedding march was played by Miss Mary Ramer as the bride party entered the church and the Mendelssohn march was used as the recessional.

The bride wore a blue traveling suit with hat to match and a corsage bouquet of bride's roses.

Mr. and Mrs. Redding left on a wedding trip to Philadelphia and Baltimore.

THE LAST SALE Of The Spring Season

is scheduled for April 8, a little more than a month from now.

Advertising for it should appear at once—for this reason: If your neighbor, living within several miles, wants to buy a piece of machinery this Spring and he doesn't know what you are going to sell he will go to a sale where he has seen it advertised. He won't take the chance of waiting for your sale. If he does see the article he desires advertised, he in all probability, will wait for your sale. His bid will more than pay for this advertising.

This is but one case, as a rule there are three or four similar instances occurring at each sale—sometimes more. There is no necessity for the man having sale the last of March to advertise continuously until the date of sale, but his advertisement should be prepared and appear at least once without delay.

The secret of a good sale is good advertising. The Times will help you prepare your advertising and advise you honestly what you need. We are not here to take your money but to be of service. In addition to the service our experience enables us to give, we offer the advantage of 500 Cards free if your advertising amounts to \$5.00 or over.

VERDUN BATTLE ARTILLERY DUEL

Rain of French Shells Stops
All German Attacks.

STRUGGLE GROWING IN SCOPE

The Storm Center is at Fort Douaumont, Where French Field Pieces Control All the Approaches.

London, March 6.—Although the great battle of Verdun rages incessantly and with great violence along the entire front, the infantry is taking little part in the extremely heavy action.

With the massing of vast numbers of artillery along the Meuse Heights and at the fortified position to the north of Verdun, the French hold the upper hand and all German infantry attacks have been stopped with heavy losses. According to official reports from Paris and Berlin, the battle for the great French fortress, for the time being, has resolved itself into an artillery conflict, and thousands of field pieces are raining a steady shower of shells on the positions of both sides.

An official statement issued in Paris says there has been a violent bombardment between the Haumont wood and Fort Douaumont and that the Germans have been unable to renew their attacks in that region, while at Douaumont a violent Teuton attack was halted and that the French hold all of the approaches to the village.

Berlin tells of the continuation of the heavy French artillery fire between the Meuse and the Moselle, thus halting infantry attacks and admits a retreat in the Forest of Thiaville, in Lorraine, where captured French positions were evacuated.

French officers, wounded at Verdun, tell of the growing scope of the battle and say that the struggle for Douaumont is only an episode. The real German aim, it is said, is elsewhere. So great has been the carnage that the "snow no longer is white."

The French official statement follows:

"North of Soissons our batteries have carried out a destructive fire on the enemy works."

"In the Argonne our artillery has bombarded the German organizations near the road to Benardville, to the north of Harazze and at Haute Chevauchee."

"North of Verdun there was a very violent bombardment, particularly between the Haumont wood and Fort Douaumont. The enemy, however, was not able to renew his attacks in that region."

"There has been no change as regards the village of Douaumont, the immediate approaches to which we hold."

"In the wood to the east of Vacheriaumont an attack directed by the Germans against our advanced position was completely repulsed."

"In the Woivre a powerful bombardment occurred in the region of Fresnes and east of Haumont. Our artillery was very active on the whole of the enemy front and cannonaded moving troops to the north of Vacheriaumont, near the Bois des Fosses, and in the neighborhood of Louvemont."

"One of our aeroplanes dropped several bombs on the railway station at Conflans, where great activity was in evidence."

Berlin's official report says: "Toward evening lively artillery fire of the enemy developed at several points on the front. Between the Meuse and the Moselle, French artillery continued very active, especially in the region of Douaumont, which at times was bombarded with great violence. There was no lively infantry fighting."

"To avoid unnecessary losses we evacuated the trenches we captured from the French on February 28 near the Forest of Thiaville, northeast of Hadonviller (Lorraine), before the concentrated fire of the enemy against these positions."

Bagdad Soon to Fall.

London, March 6.—The fall of Bagdad is considered imminent, according to an Athens despatch to Reuter's Telegram company. Advice from a diplomatic source in Constantinople, adds the despatch, are that an attempt has been made to assassinate Enver Pasha, the war minister, who was wounded. The Duke of Mecklenburg, "in view of the gravity of the situation," has telegraphed the German emperor urging him to send reinforcements to Constantinople.

MOEWE SAFE IN GERMAN HARBOR

Raider Sunk 15 Ships and
Seized \$200,000.

HAD 300 PRISONERS ABOARD

Berlin Announces Arrival of Cruiser at "Some Home" Port After Laying Mines and Capturing Many Ships.

Berlin, March 6.—Official announcement was made here that the German cruiser Moewe arrived in "some" German port.

She had on board a large number of British prisoners and \$200,000 in gold bars.

The announcement says fifteen vessels were sunk by the Moewe, which also laid mines at several points. One of these mines, it is stated, sank the British battle ship King Edward VII. The statement says:

"The naval general staff states that the Moewe, Commander Burggrave Count Dohna-Schlodien, after a successful cruise lasting several months arrived at some home port with four British officers, twenty-nine British marines and sailors, 266 men of crews of many steamers, among them 103 Indians, as prisoners, and 1,000,000 marks in gold bars."

"The vessel brought up the following enemy steamers, the greater part of which were sunk and a small part of which were sent as prizes to neutral ports:

"The British steamships Corbridge, 2687 tons; Author, 3496 tons; Trader, 3608 tons; Ariadne, 3035 tons; Drummond, 3627 tons; Farrington, 3146 tons; Clan MacTavish, 5816 tons; Apam, 7781 tons; Western, 3390 tons; Herare, 3336 tons; Flamenco, 4622 tons; Saxon Prince, 3471 tons; the British sailing vessel Edinburgh, 1472 tons; the French steamer Maroni, 3168 tons, and the Belgian steamship Luxembourg, 4322 tons."

"At several points on enemy coast the Moewe also laid out mines, to which, among others, the battle ship King Edward VII fell victim."

Not a life of the 777 men aboard was lost when the battle ship King Edward VII, one of the finest predreadnought men-of-war of the British fleet, struck a mine on January 9. Following its usual policy, the British admiralty did not announce where the disaster had occurred, but a trainload of survivors were landed at Chatham, thirty miles southeast of London, a few hours after the battleship was sunk.

The official announcement said: "H. M. S. King Edward was struck by mine. Owing to the heavy sea she had to be abandoned and sank shortly afterward. The ship's company was taken off without loss of life. Only two men were injured."

Washington, March 6.—The first presidential primary will take place in Indiana tomorrow, when the state will hold a state-wide primary and elect delegates pledged to Charles W. Fairbanks, former vice president, who will be put forward as the state's favorite son.

Indiana will also nominate a full state ticket for both parties. President Wilson is opposed for the Democratic nomination and Vice President Marshall, whose name is on the ticket for renomination, will have no opposition.

The other Republican candidates for the presidential nomination have not entered Mr. Fairbanks' state to canvass for delegates, extending to him the courtesy that has been given all "favorite sons." Indiana will choose thirty delegates.

MILK HORSE SPOILS RACE

Fast, But Bound to Stop at Every Customer's House.

South Bethlehem, Pa., March 6.—When Clement Bauder, a Lower Saucon milkman, makes his arrangements for another horse race with Asher Frey, a drover, the course won't be Bauder's milk route.

In a road race Frey's nag won, because Bauder's horse slowed up in front of every house at which he sells milk. The course was a mile long, ending at the Pennsylvania house, Hellertown. Frey's horse took advantage of the frequent stops of Bauder's animal, and easily won the race by several lengths.

HOUSE BACK FROM MISSION TO EUROPE

Wilson's Envoy Found no Hospitality Toward U. S.

New York, March 6.—Colonel E. M. House, who sailed for Europe on December 28 on a confidential mission for President Wilson, arrived on the steamship Rotterdam from Falmouth. As soon as he landed from a special coast guard cutter which met the Rotterdam at quarantine, Colonel House announced he would leave at once for Washington, to meet the president.

He declined to comment on his mission or what he had seen or done while abroad, reiterating the statement he had made prior to leaving here in December that his mission was to convey to some of the American ambassadors information having to do with international questions that could not be supplied them by code or letter.

Asked if he had noticed any marked change in the attitude of Europe toward the United States since his previous trip, Colonel House said:

"Reports of an unfavorable attitude toward the United States by the people of Europe are exaggerated. At least, I heard no criticism in any of the countries I visited. I will say also, that we should remember that the people of the belligerent nations are living with their nerves on edge and we should make allowance accordingly."

He stated that press despatches had covered every phase of his movements while abroad.

TURKS REMOVE MINES

Begin Clearing Dardanelles of Explosives, Says Despatch.

London, March 6.—Reuter's Athens correspondent telegraphs the following:

"No further news has been received regarding the reported assassination of Enver Pasha."

"Significant information has been received here from private sources that the Turks are removing the mines from the Dardanelles, which appears to be a measure preparatory to opening the straits."

An Athens despatch Saturday night, from the same correspondent, said advice had been received from a diplomatic source in Constantinople that an attempt had been made to assassinate Enver Pasha, the Turkish minister of war, and one of the most powerful German supporters in the empire. It was said an appeal had been made to Emperor William to send reinforcements to Constantinople "in view of the gravity of the situation."

Convicted as Scalp Bounty Forger.

Bellefonte, Pa., March 6.—After being out seven hours the jury returned a verdict of guilty of forgery against Hayes Schenck, justice of the peace at Howard. Schenck was charged with issuing fraudulent probates for scalps of noxious animals. Centre county, it is alleged, had paid out at least \$4000 in less than two years on certificates issued by Schenck.

One quart of whisky a month a person is the limit placed by the bill on importations of intoxicants from other states. The law will go into operation November 1, 1916.

Why Tolerate Catarrh?

You have noticed, no doubt, that any cold aggravates nasal catarrh, and the flow of mucous amazes you that such objectionable matter could find lodgment in your head. To ignore this catarrh when the cold subsides is wrong because it continues to slowly injure the delicate linings of the nasal passages and clog them up.

To correct catarrh, cleanse the nostrils frequently with a solution of warm water and salt, insert vaseline on retiring, and take a spoonful of Scott's Emulsion after meals for one month. Scott's acts through the blood to feed the tissues, and contains soothing glycerine to check the inflammation and heal the sensitive membrane.

Scott's is pleasant to take.

SAGE AND SULPHUR
DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost every one knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wheat's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, prepared by the addition of other ingredients, for about 50 cents. Don't let any one tell you that you can't possibly tell if you darkened your hair, as it does it so naturally and evenly. You dispense a sponge or soft brush with it and draw it through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wheat's Sage and Sulphur Compound is a delightful toilet remedy for those who desire dark hair and a youthful appearance. It is not intended for the cure of dandruff or prevention of hair loss.

THE BOHEMIAN GIRL

First Grand Opera to be Produced in Gettysburg.

One of the very few operatic presentations that attract and delight children is the Aborn Opera Company's big spectacular production of "The Bohemian Girl" which comes to Walter's Theatre on Thursday, March 9. Balle's masterpiece in its present amplified form contains much that interests both old and young. Realism is now attained in the several great scenes by the employment of pigs, chickens, monkeys, geese and dogs, the introduction of which does not mar in the least the beauties of Balle's beautiful music. A cast having as its important members, Edith Allan, Henry Taylor, Mildred Rogers, George Dunstan, Francis Tyler and Ralph Nichols insures an artistic rendition of the opera—advertisement.

WILSON'S FRIENDS TO FORCE ISSUE

Determined Congress Shall Give
Him Free Hand.

MANY WOULD DODGE VOTE

Timid Congressmen Fear to Place
Themselves on Record on Resolu-
tion Warning Americans Off Bellig-
erent Ships.

Washington, March 6.—Administration leaders are confident of defeat in Congress on the resolution warning Americans off belligerent ships. The resolution, which was introduced by Representative Clegg of Ohio, is expected to pass by a large majority.

Discord and petty political influences, with a parliamentary tangle over the McLeary "warning" resolution, have been responsible for the postponement of a vote on the issue in the house, but despite these annoyances and the timidity of those congressmen who fear to place themselves on record, the administration forces are determined there shall be no further unnecessary delay.

The policy of the Berlin foreign office has been encouraged by the raising in congress of the proposals to abandon or modify the right of Americans to travel freely on the high seas. The president's adherents are daily becoming more insistent that he be relieved from the embarrassment to his handling of a dangerous situation which has developed from this agitation.

Fear of the German vote in their home districts is what has caused some of the members of the house to seek to evade the issue. One of the reasons for postponing action on the McLeary resolution was the plea made for the Indiana delegation that the party primaries in their state are to be held tomorrow, and with a strong German element among the voters, some of these have no desire to be placed on record on the armistice question before the primaries.

In the arrival here of William J. Bryan administration leaders see a possibility that efforts are to be made to organize solidly the opposition to the president's demand that the house place itself on record.

Several representatives called on him soon after his arrival in Washington, and while some of his friends insist he will not actively oppose the president, cause for concern in his trip here at the present time is seen by some of the administration leaders.

The efforts to hurt the president in his stand on the armed ships question already are reacting against those members of congress who for one reason or another are openly or otherwise working against him. Many telegrams from the south and middle west attacking the action of Senator Gore and his associates and those in the house who show signs of adopting some similar course.

ODD BIRTHDAY SOUVENIR

Civil War Veteran Shows Iron Coffin He Made Years Ago.

Baltimore, March 6.—An iron coffin studded with heavy bolts of steel and weighing several hundred pounds, was the center of attraction at the celebration of the eighty-fourth birthday anniversary of John J. Andrews, at his home, Lewistown, Arlington.

The coffin was made by Mr. Andrews shortly after the civil war in which he fought for the Union.

Mr. Andrews calmly instructed his relatives to be sure to bury him in the massive casket which he keeps under his bed. He says he enjoyed a personal friendship with Abraham Lincoln.

\$50,000 Bail in Shooting Case.

New York, March 6.—Four men in addition to William Sherwood arrested in connection with the shooting of Bennie Weinstein, a guard employed by I. Kaplan & Sons, manufacturers affected by the shirt makers' strike, were held by a magistrate in \$50,000 bail each. Sherwood's alleged confession, that he was employed to do the shooting by the shirt makers' union, is said by the police to have been corroborated in statements signed by William Fisher and Richard Harrison, two of the men in custody.

Barge Wrecked; Nine Men Lost.

Philadelphia, March 6.—The Reading Coal company barges Kohlnoor and Ashland have been wrecked off Cape Cod, and it is believed nine men were lost. At the time the wind was blowing sixty-five miles an hour, with thick snow and a heavy sea prevailing.

Electric Light in Tub Kills Woman.

Toledo, O., March 6.—Mrs. Bertram Bellows, aged twenty-two, wife of a local real estate dealer, was killed by electricity in her bathtub when she tried to remove a portable electric lamp, which had fallen into the tub.

Bulgars Attack Greek Troops.

Athens, via Paris, March 6.—The chief of police reports that Bulgarian soldiers have attacked Greek frontier guards in the neighborhood of Axi-Sovo, near the Greco-Serbian frontier.

Something Big.

When a millionaire gets ready to build his first real house he is strongly attracted to a union station as a model.—Louisville Courier-Journal.

VERMONT TO VOTE ON PROHIBITION

The Question Comes Before
Town Meetings.

Montpelier, Vt., March 6.—The question whether Vermont, which for fourteen years has permitted the licensing of liquor selling under a form of local option, shall again adopt prohibition, will be decided on Town Meeting day, tomorrow.

There will be a referendum vote also on the acceptance of the direct primaries act.

A prohibitory amendment to the state constitution was passed by the last legislature and will come before the people on a yes and no vote. A majority of the ballots cast in the 145 cities and towns will be sufficient to determine the issue.

The prohibitory law was first adopted in Vermont in 1852, the state being one of the earliest in the country to forbid the sale of intoxicating liquors. The prohibitory amendment was repealed in February, 1902.

BIGGEST, SWEETEST CARGO

First Train of 250,000-Ton Shipment
of Sugar, Worth \$25,000,000.

Chicago, March 6.—The first train load of what is said to be the largest transcontinental shipment of a single commodity ever made passed through Chicago.

It was sugar from Hawaii. The entire consignment, most of which goes to New York refineries, weighs 250,000 tons, is valued at \$25,000,000 and the freight charges will be in the neighborhood of \$3,000,000.

The entire consignment will require 6000 freight cars, or 120 solid trains. The movement, which will require three months to complete, was made overland because of the blocking of the Panama canal.

Regular milking permanent-ly improves the animal as a milk producer aside from directly increasing the milk flow.

For Bronchitis, Whooping Cough, Croup, Coughs And Colds

Make the Best Remedy at Home—128 Teaspoonful for 50 Cents

If everything was sold in as liberal and fair a manner as The People's Drug Store are selling Schiffmann's New Concentrated Expecto-rant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonful, because 50c worth makes a whole pint (128 teaspoonful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine, or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, St. Paul, Minn.

IN KID GLOVES, THE P. CEN-TEMER & CO. LINES.

We are pleased to be able to say that they have taken excellent care of us in the matter of keeping us stocked in sizes and kinds in the same former qualities and—except in one instance—we have made no advance in price. A full and complete stock of colors and sizes for Easter now—but owing to the great demand for this period, and scarcity in Importers' hands, we suggest early purchase for fear of disappointment at the last moment.

Umbrellas

Under Values.

Last Fall we bought an unusual quantity of Umbrellas under the advance price "squeeze." We know if we tried to buy the same kinds now we would have to pay more for them. Except for three small factories in the United States all Umbrella frames were made in the War Country—and it is represented to us that these "Small Factories" have been for some time operating on Munitions—and up goes the price of handles and frames. All cloths, especially dyed cloths, are much higher. We are offering this lot at exactly the same prices that we asked for the same grades a year ago. Ladies' & Men's sizes and handles, and because of the great number of our stock prices are even less for some grades than formerly.

Prices are \$1.00—\$1.25—\$1.50 to \$3.00.

MEN'S SHIRTS AT 50 CTS.

NEGLIGEE & DRESS

There was never a better Shirt made, that we know of, than our celebrated "Red Top" brand to sell at 50 cts. BEST in quality of materials—Madras, white or colored, Chambrays, Percales, BEST in the liberalness of cut. BEST in style. The next lot will have to be skimmed in quality or size because of the advance in materials. A 60 Dozen stock now. Still Cuffs, Soft Cuffs, Laundered Pleats, Plain Fronts—and all the others.

CHEAPENING A SHOE

Most of the vital parts of a shoe are hidden and quality does not show until the footgear is put to the test of wear.

Paper or composition can be substituted for leather and the shoe will look as well from the outside.

It behooves the purchaser, then, to study brands which carry a guarantee of quality—to choose stores that guard their interests.

There are many such, and from time to time they make known their willingness to serve you through the advertising in The Times.
